The Clerk was advised in August 2016 by Matt Pickett – External Auditor - Local Council Audit Team that where a cost value is unknown a proxy value must be given to the value of the asset. This proxy value can be insurance value, however, once this proxy value is set, the value must not change.

The movement year on year on box 12 (Annual Return) should only represent the purchase cost of any additions less the value of any items disposed in the year. There should not be movements for revaluations, changes in insurance value, depreciation, impairment etc.

For comparisons of changes from April 2016 these are shown in the Asset Register Summary April 2016 to January 2024.
